BATCH UPDATE UTILITY

A crowd favorite and the ultimate time-saver tool for admins, compliance, or just about anyone who has to modify more than one loan. Manage 100's or 1000's of file and field changes all in a simple excel sheet, drag it in and hit "go". The Batch Update Utility does the rest. This is a MUST HAVE for NMLS Call Reporting and HMDA season, and there are more use-cases then we can list!

$2,995

PRO VERSION ADDS:

- Batch assign, reassign, or clear out loan file contacts.
- Batch import/export of eFolder documents
- Import essentially unlimited docs into their respective loans and eFolder buckets
- Secondary fields modification

BATCH UPDATE PRO

Add more features to the already powerful Batch Update Utility. For starters, batch assign, reassign, or clear out loan file contacts. Then come the big guns - batch import/export of eFolder documents. Import essentially unlimited docs into their respective loans and eFolder buckets in one shot. Not enough? Alright, then export everything you need for an investor package, audit, cold storage, etc. out of all your loans. Just pick an export location, the docs you need, and their loan numbers and let Batch Update Pro work its magic.
